📍 Vietnam

Profile

Results-driven ReactJS Developer with 6+ years of experience building scalable, high-performance web applications for global clients in real estate, SaaS, and e-commerce. Strong hands-on expertise in React.js, TypeScript, Redux, React Query, Thunk/Saga, and REST API integration. Experienced in leading small front-end teams, implementing CI/CD pipelines, and collaborating within Agile Scrum environments. Adept at transforming complex business requirements into intuitive, responsive UI/UX experiences while maintaining top performance and code quality. Fluent in English, proactive communicator, and passionate about modern web technologies.

Languages

English 

Education

Bachelor's Degree

Ho Chi Minh City University of Technology

09/2011 – 03/2015

Interests

Reading, Football, Painting

Professional Experience

Senior Frontend Developer

Nexxt Ideas

04/2022 – 08/2025 | Canada

- Led a front-end development team of 3 engineers in delivering real estate web applications for an Australian property management platform.
- Developed and optimized React.js + TypeScript components with Redux Toolkit, React Query, and Thunk/Saga for state management and async operations.
- Designed and implemented reusable UI components using Material UI and Tailwind CSS, ensuring responsive and accessible design across browsers.
- Integrated frontend with RESTful and GraphQL APIs, maintaining data consistency and optimizing fetch patterns for performance.
- Established CI/CD pipelines using GitHub Actions and Azure DevOps, reducing deployment times by 40%.
- Collaborated daily with Australian-based designers and backend teams to align technical solutions with client expectations.
- Conducted code reviews, mentoring junior developers to uphold best practices in code quality, documentation, and testing.
- Improved page load performance by 35%, leveraging lazy loading, memoization, and component-level optimization.

Frontend Developer

Devot

09/2018 – 03/2022 | Croatia

- Built scalable web interfaces for clients in e-commerce and real estate, using React.js, Redux, and Next.js frameworks.
- Collaborated with UX/UI designers to implement pixel-perfect, responsive layouts from Figma prototypes.
- Managed application state with Redux-Saga and React Query, ensuring smooth async data flow.
- Integrated complex backend APIs and implemented error handling and loading states to enhance UX.
- Participated in Agile ceremonies (sprint planning, retrospectives, demos), ensuring timely delivery of high-quality features.
- Contributed to CI/CD implementation with Jenkins and Docker, supporting automated deployments and environment management.
- Enhanced accessibility and SEO performance, resulting in improved client satisfaction and repeat business.
- Mentored interns and conducted internal workshops on React performance optimization and testing.

Software Engineer

Implex

05/2015 – 08/2018 | Poland

- Supported front-end builds for small and medium business websites using React.js and Vanilla JavaScript.
- Worked on component-based architecture and implemented reusable UI libraries.
- Integrated REST APIs with Axios, improving data sync and app reliability.
- Participated in QA and cross-browser testing, ensuring consistent UI performance.
- Wrote modular, testable code following ES6+ standards.

- Collaborated with back-end engineers to define API contracts and troubleshoot integration issues.
- Gained hands-on experience in Redux Toolkit, React Hooks, and Router during migration projects.
- Recognized for strong communication with foreign clients and efficient problem-solving in tight deadlines.

Skills

Frontend

React.js, Next.js, TypeScript, Redux, Redux-Saga, React Query, Context API

Backend

Node.js, Express, Nest.js, Python, Flask, Laravel

UI/UX & Design

Responsive Design, Figma Integration, CSS3, SCSS, Tailwind CSS, Ant Design, Material UI

DevOps & CI/CD

GitHub Actions, Jenkins, Azure DevOps, Docker, Bitbucket Pipelines

Database

PostgreSQL, MySQL, MongoDB, Firebase

Testing & QA

Lighthouse, BrowserStack, QA Scripts, Unit Testing

Workflow

Agile, Scrum, Jira, Slack

Performance Optimization

Core Web Vitals, Lazy Loading, SEO Best Practices
