

Huy Pham

Senior Full Stack Engineer

✉ hu.work.pham@gmail.com

📍 Vietnam

Profile

Fullstack Developer with 7+ years of experience in designing and developing scalable web and mobile applications across multiple industries. Proficient in Node.js, Python, React.js, and NestJS, with strong expertise in building robust back-end APIs and modern front-end interfaces. Passionate about clean code, best practices, and Agile development. Experienced in pair programming, test-driven development (TDD), and collaborating closely with product owners and designers to deliver high-quality, user-centered products. Committed to continuous learning, teamwork, and technical excellence.

Languages

English 

Education

Bachelor's Degree

Ho Chi Minh City University of Technology

09/2011 – 03/2015

Interests

Reading, Football, Painting

Professional Experience

Senior Full Stack Developer

Nexxt Ideas

04/2022 – 08/2025 | Canada

- Developed scalable web and mobile applications using Node.js and React.js, serving clients in e-commerce and digital health sectors.
- Designed and implemented secure RESTful and GraphQL APIs with Node.js, integrated with PostgreSQL and Redis.
- Collaborated with UI/UX teams to translate minimalist designs into responsive, high-performance interfaces.
- Applied TDD and CI/CD practices using Jest and GitHub Actions, improving code reliability and release frequency by 40%.

Full Stack Developer

Devot

09/2018 – 03/2022 | Croatia

- Built and maintained enterprise-grade web applications for international clients using Node.js (Express/NestJS) and React.js.
- Integrated Python-based microservices for data processing and analytics within Node.js backends.
- Developed reusable front-end components and state management patterns with Redux and Hooks, improving code scalability.

Software Engineer

Implex

05/2015 – 08/2018 | Poland

- Designed and implemented Node.js and Python APIs for web and mobile platforms in healthcare and logistics domains.
- Integrated external APIs, optimized backend performance, and enhanced caching strategies to reduce load times by 25%.
- Worked with PostgreSQL and SQL Server to build normalized databases with stored procedures and query optimization.

Skills

Frontend

React, Next.js, TypeScript, JavaScript, Angular, Vue.js, MUI

Backend

Node.js, NestJS, Express.js, REST APIs, GraphQL

AI/ML

LLM integration (OpenAI, LangChain), AI workflow orchestration, real-time insights delivery

Database

PostgreSQL, MySQL, MongoDB, Firebase

Testing & QA

Lighthouse, BrowserStack, QA Scripts, Unit Testing

Workflow

Agile, Scrum, Jira, Slack

Performance Optimization

Core Web Vitals, Lazy Loading, SEO Best Practices
